---

## SUMMARY

Final-year B.Tech Information Technology student at Kalasalingam University passionate about Web Development, Artificial Intelligence, and Embedded Systems. Experienced in building real-world projects, including IoT-based safety systems, machine learning models and full-stack applications. Strong problem-solver eager to learn and apply emerging technologies to create innovative, user-focused solutions.

## SKILLS

Languages & Frameworks: Python, Java, C, Dart, React, HTML, CSS, JavaScript

AI/ML: Data preprocessing, Model evaluation, Text classification, Scikit-learn, Generative AI (Oracle Certified)

App Development: Flutter

Full-Stack Development: React, Bun.js, MongoDB

IoT & Embedded Systems: Arduino programming, Sensor integration, Real-time data transmission

Tools: Postman, REST APIs, Fast API, Git, GitHub, Vercel, Chrome Extension APIs

## PROJECTS

- Stockfy – Full-stack stock maintenance system with admin & user portals using React, Bun.js, MongoDB. Features product management, real-time inventory updates, and purchase tracking. **Website:** <https://stockfy-ruddy.vercel.app/>
- Drowsiness Detection System – Arduino Uno, OV7670 Camera, PIR Sensor for detecting driver fatigue and triggering alerts, with WiFi for remote monitoring.
- Fake News Detection – Machine learning model using Python, Pandas, Scikit-learn to classify news as real or fake.
- Two Player Competitive Game – Flutter-based game with real-time competitive gameplay and score tracking. **Website:** <https://twoplayapp.vercel.app/>

## EDUCATION

B.Tech in Information Technology – Kalasalingam Academy of Research and Education | 2022 – Present | CGPA: 7.92

S B K Higher Secondary School – 2016 – 2022

## CERTIFICATIONS

- Postman API Fundamentals Student Expert – Postman
- Java Programming, UI/UX for Beginners, Introduction to AI – Great Learning
- Oracle Cloud Infrastructure AI Certified Foundations Associate & Generative AI Certified Professional – Oracle
